THE PRINTING COMMITTEE.

WASHINGTON, May 26.—Col. D. A. Grosvenor, member of the employment committee of the G. A. R., testified, to-day, before the House committee on printing, in regard to the employment of soldiers and sailors and the orphans of soldiers and sailors by the government printing office. Col. Grosvenor was asked if the assurance made by Benedict to representatives of the G. A. R., that the law exempting this class of employees from discharge had been kept. He said it had not been kept, but that the reverse of this was the case. Grosvenor further stated that he had visited the government printing office frequently of late in the interest of the comrades of the G. A. R., and that it had always seemed to him to be the most difficult bureau of the government the G. A. R. had to deal with, and where they could expect the least help.

HAITI REVOLUTION.

The Secretary of State had been informed by the United States consul at Port Au Prince, Hayti, that fears are entertained of another revolutionary outbreak on that island. The report was of such a character that it was deemed advisable to send a naval vessel to the island for the protection of the lives of the American citizens there, and a telegram was sent to Rear-Admiral Luce, commanding the North Atlantic squadron now anchored off Port Royal, South Carolina, to dispatch one vessel of his squadron on that mission.

REPUBLICAN HOUSE CAUCUS.

Up to this time (2.30 p. m.) the Republican House caucus has confined itself to a discussion of the general policy of the party. Representative Hovey, of Indiana, made a speech, earnestly urging the Republicans to combine in the effort to force the Democrats to take a decided stand on the pension legislation. As part of his plan, he urged that a bill to remove the restrictions upon the payment of arrears of pensions, be made a party issue, if possible, and that the Democrats be placed in a position of antagonizing this and other pension bills by refusing a consideration for them. Hovey's remarks were well received, and led to a number of other suggestions on the same line. The tariff question has not yet been specifically discussed by the caucus. The following is the pension legislation:

Resolved, That it is the sense of this caucus that the House should make a special order for the consideration of a general

pension legislation at the earliest day practicable during the session, and that the committee on rules be requested to report a resolution to that end, said order to be a continuing order from day to day, until all the general pension legislation on the calendar shall be disposed of.

Hovey, of Tennessee, then moved the following resolution, which was unanimously adopted:

Resolved, That it is the sense of this caucus that the committee on rules of the House of Representatives should report a resolution, making it in order as a matter of privilege to move or discharge the committee on education from further consideration of the Blair educational bill and report to the House for consideration at the earliest practicable day during this session.

The members of the ways and means committee next laid before the caucus a formal proposition that had been made by Mills' to dispense with the debate on the tariff bill under the five minute rule, and a long debate ensued. At the beginning, several members favored the acceptance of the proposition, but in the end, they were induced into making the action of the caucus upon the subject unanimous. It was disclosed during the debate that the general sentiment of the caucus was that if the Republican tariff bill should be formulated, it should fully and emphatically represent the Republican policy of protection.

Kelley vigorously protested against the formation of any bill, and other members argued that it was not reasonable to require a minority party to submit a bill which necessarily would not fully meet the views of the members of that party, but must be constructed with a view to securing sufficient strength for passage from the majority party.

Nelson, of Minnesota, while urging a preparation of the bill, remarked that he "was not in love with Mills' bill"

and added that Minnesota could be relied upon to give a Republican majority this fall, regardless of the action of the House on the tariff.

Finally Browne, of Indiana, offered the following resolution, which was unanimously adopted:

Resolved, That it is the sense of this caucus that the pending tariff bill be taken up and considered in committee of the whole, under the five minute rule in the usual way, section by section, and paragraph by paragraph. The caucus, which lasted four hours, then adjourned.

HOUSE.

WASHINGTON, May 26.—The House went into committee of the whole on the legislative, executive and judicial appropriation bills pending.

The amendment offered by McCommas, of Maryland, for increasing the clerical force of the civil service commission, was advocated by Tracy, of New York, who said that an increase would enable the President to extend a classified list. The President has been criticised for having made an extension. A discussion followed by Messrs. Whitthorne, Hopkins, Adams and Butler.

Butler, of Tennessee, said the Democratic party in Tennessee had a method which beat Hubball all hollow. He sent to his desk and had read a letter from J. R. M. Davis, secretary of the Hancock County Democratic committee to United States Commissioner Williams, at Xenopolis, Tenn., asking him what steps we intended to take in the next campaign, and saying, "The party is willing to give to gain strength but otherwise, say business will be withheld."

Whitthorne said, "I know nothing about the truth of the allegations. I don't know the parties, but I am gratified for one, that the thing is working." (Laughter.)

The amendment was then agreed to, 81 to 71. While the vote was in progress, Spinola, of New York, entered the chamber and enquired what the pending question was. On being informed by the chair that the vote was on the amendment increasing the force of civil service commission, he passed between the tellers with the remark, "I want to be recorded in the negative against that relic of federalism."

The amendment provides for one additional clerk of class three, one at class two and one at \$1,000, and increases the appropriation for the necessary traveling expenses from \$4,000 to \$5,000.

Crain, of Texas, raised a point of order against the appropriation of \$3,600 for the salary of this official at \$4,000 and denounces the practice of cutting down salaries on appropriation bills.

Pending further action the committee rose and the House adjourned.

Those Spurious Notes.

PARIS, May 26.—In the Chamber of Deputies to-day the minister of finance stated that the Bank of France was not responsible for the forged notes in circulation, and therefore refused to cash such notes. The state might, however, require the bank to reimburse the innocent holders of the counterfeit notes. During Thursday and Friday the bank had cashed 23,300,560 francs in notes, only a few of which have been found to be spurious.

J., May 26.—Mrs. Cleveland and a large party of Philadelphians arrived here about noon, the party proceeded directly to President McCosh's residence, where Mrs. Cleveland received the students and the faculty, together with many people from other cities. Luncheon was afterward served at Professor Marquand's handsome place.
